

## WORKSHOP DESCRIPTION

This workshop is directed towards landscapers, homeowners, and tree care companies interested in learning about basic, proper tree care.

This workshop is called Urban Forestry 101. It will provide the participant with basic information regarding tree care. Young tree care – proper planting, mulching and pruning will be discussed. The proper care of mature trees will also be covered along with information regarding hazards of mature trees. Basic tree pests will be highlighted to inform the landscaper and homeowner about how to identify and control them.
