

Carolina Canopy Workshop

Urban Soils: Supporting Trees from the Start

9:00 –9:15 a.m. Registration and Welcome

9:15 - 10:15 a.m. Life of Soil

Ron Danise, Southern Organics & Supply

10:15 - 10:30 a.m. Break

10:30 - 11:30 a.m. An Arborists Review of Soil Science

Patrick Anderson, Rainbow Tree Care Scientific

Soil is arguably the most important component for long-term tree health and survival. The field of soil science is vast, and encompasses microbiology, hydrology, chemistry, etc. During this discussion we will review the composition of a typically healthy soil and breakdown the key components of how urban/suburban trees interact.

11:30 a.m. - 12:30 p.m. Lunch (*sponsored by Arborguard Tree Specialists*)

12:30 - 1:15 p.m. Tree Planting Challenges

Kevin Heifferon, City of Greenville

Using downtown Greenville as the backdrop, Kevin will present the different challenges and issues of his tree planting program. Discussion will include tree pits, vandalism, tree grates, positives and negatives.

1:15 - 2:00 p.m. Soil Management During Construction

Mark Livingston, Arborguard Tree Specialists

This presentation will discuss the management strategies, process, and tools that we have to manage tree preservation in the built environment.
