

WEBINAR: Vacuum Kiln and Sawmill Technology Demonstration

December 1, 2020

12:00 -1:00 p.m. EST

Online Workshop—Free of Charge

Join us for a narrated demonstration of the sawmill and vacuum kiln utilized to process urban wood into usable lumber. Avery Earwood, owner of **Wild Edge Woodcraft** in Rougemont, NC, will demonstrate his Timber Harvester bandsaw and unique iDRY Plus vacuum kiln as he discusses his role in the NC urban wood processing industry from tree removal to finished “live edge” furniture. The webinar will conclude with some time to ask questions and share information about urban wood processing.

REGISTER HERE: www.ncufc.org/events

Pre-registration is required. You will receive a link to the webinar the day before the event.
